1. The following is an examiner's statement of reasons for allowance: the Examiner has not found any prior art that would render obvious the claimed method and apparatus for assigning PRN codes to a pseudolite including the availability calculator for determining unreceivable satellites and the subsequent use of identifications corresponding to the unreceivable satellite to identify a pseudolite transmitter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stansell, Jr. discloses recommended pseudolite signal specification and the employment of one of 51 non-GPS codes. Brown discloses a pseudolite wherein the pseudolite transmitter is uniquely identified through its assigned PRN code. Kawano et al disclose a known pseudolite transmitter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory C. Issing whose telephone number is (703)-306-4156. The examiner can normally be reached on Mon-Thurs 6:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Tarcza can be reached on (703)-306-4171. The fax phone numbers for the organization where this application or proceeding is assigned are (703)-305-7687 for regular communications and (703) 305-7687 for After Final communications.
